2 QUALITY POLICY

Holmbury is committed to the supply of high quality Hydraulic Couplings and associated products and services to various engineering industries. The objective of the Company is to supply on time products of a quality standard whose function, appearance and price will satisfy the requirements of our Customers as well as meeting any Statutory and Regulatory requirements.

The Company recognises that to achieve that objective it is essential to have planned effective working systems, which are briefly described in this Quality Manual and Quality Procedures, which meets the criteria of ISO 9001:2008. These objectives are reviewed and analysed in the management review meetings.

In recognition and acceptance of the requirements of ISO 9001:2008 and those of our Customers the policies determined and described in the Quality Manual and Supplementary Quality Procedures covering Design, Assembly & Distribution have the full support of the Board of Directors and are mandatory.

We are committed to continuous improvement throughout our field of operation and to further the effectiveness of our Quality Management System.

The Quality Policy will be communicated throughout the Company.

The reputation of the Company rests on the high quality of its products and it is the responsibility of Company Management to administer these policies and the responsibility of all employees to be aware of the importance of their work and to carry out the procedures and practices referred to in the Quality Manual and Procedures.

Signed: 
M. Vanns

Managing Director
